Custom Designs

The ability to create custom designs separates the ordinary award from the extraordinary. The Windsor Collection is able to draw upon a wealth of sources to create, with our customers, extremely unique award concepts with global competencies in sourcing and logistics to ensure quality and on time delivery.

Like all great inventors, our goal is always to build a better mousetrap! Our mousetrap design is a unique combination of metalwork and optical crystal. Truly an award to reward corporate creativity.

The handcrafted stainless steel insert is hand fitted into the optical S design. The smooth curves on the award are the result of highly skilled artisans who hand craft each award.

Oversized theatre ticket in Optical Crystal was created to celebrate grand openings. Options including an array of bases and color fill processes allow this design to be used in a multi-tiered award program.
