# Eco-Friendly Sports Bottles

32 Oz. Adventure Bottles Made With Post-Consumer Recycled Tritan™ Renew

## Here's How it Works:

Polyester waste, including carpet fibers and PET  drink bottles, is broken down to its elements. This process is known as "chemical recycling".

The molecules are reformed into new co-polyester that is crystal clear and food contact compliant.

We mold new, reusable, dishwasher-safe sports bottles using **50% post-consumer recycled content**.

## Manufacturing Advantage:

**USA-Made products you can trust:** Our factory received International Sustainability & Carbon Certification! (ISCC)

Recycled content usage from certified suppliers will be audited annually by mass balance method.

*Recycled content of lids varies. See website for details.*

# Eco-Friendly Sports Bottles

## Post-Consumer Recycled Sports Bottles

### UpCycle - Here's How it Works:

Single-use water and Drink bottles made from PET  are reclaimed from municipal recycling centers.

The containers are sorted, shredded and sanitized to meet food-contact compliance to make rPET material.

We mold new reusable sports bottles of higher value from **100% post-consumer recycled rPET.**

*Recycled content for the lid varies. See website for details.*

# Eco-Friendly Tumblers & Bags

## Post-Consumer Recycled Material Products

### Here's How it Works:

Single-use plastic bottle caps are collected from municipal recycling centers.

The material is sorted, shredded, and sanitized for food-contact compliance.

We mold the exterior of our auto mug from this material and assemble it with a home recycled liner and lid.

Promote your brand responsibly with reusable auto tumblers made with **post-consumer recycled polypropylene** ♻️
