# Tips & Info: Business Cards

## General Information for Manual Catalog Orders

### Graphic Design - Artwork Editing Charges

We want to make sure your artwork looks its best and we've implemented the resources necessary to ensure the highest quality. Examples include: logos requiring color separation, missing bleeds, wrong-sized artwork for the order, and more. Minimal fees apply for minor adjustments.

Keep in mind that sometimes these edits may add up to two extra production days. We'll let you know in advance and the listed production times will start once you've given us the green light on the artwork.

If you have any questions or need assistance, don't hesitate to get in touch. We're here to help.

### Printing Specs

#### Back Copy on Spot Color Business Cards

Copy printed on the backside of a business card will be flat printed.

#### Bleeds on Spot Color Business Cards

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed  $\frac{1}{8}$ " beyond the paper size, on each side.

	500	1,000	Add'l 500
Standard & PMS Inks	\$9.75	\$9.75	\$3.25

(R) Prices shown are per edge.

Request a quote for bleeds:

- if more than 2 edges bleed
- if bleed area exceeds  $\frac{1}{16}$ " in thickness

#### Margin Requirements

Business cards require a  $\frac{1}{8}$ " margin on each side.

#### Registration

Registration is when two inks or foils come within  $\frac{1}{16}$ " or touch.

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and die cutting
- Ink and foil stamping
- Flat and thermography
- Ink and foil embossing
- Engraving or letterpress
- Ink and blind embossing
- and any other process

	500	1,000	Add'l 500
Registration between 2 inks	FREE	FREE	FREE
Registration between 3+ inks	\$19.90	\$19.90	FREE
Registration between 2 foils	\$40.00	\$40.00	FREE

(R)

### Master Business Card Program

Maintain your corporate image and save money and time. We print your "Master," consisting of your company name and standard company information. We hold the printed Masters and imprint with individual names and information as needed. The minimum quantity for Master Business Cards runs is as low as 10,000. Personalized imprints can be ordered in quantities of 250, 500, or 1,000. Contact us.

### Multiple Lot Business Cards (Volume Discount)

Multiple lot discounts are available with text changes or omissions. Changes in registration, logos, bleeds, ink, stock, layout, etc. will be priced as separate orders. Contact us.

### Oversized and Undersized Business Cards

Standard Business Cards measure  $3\frac{1}{2}$ " x 2". Special card sizes measuring 1" x  $2\frac{1}{2}$ " up to 4" x 4" are available. Contact us for more details.

### Rounded Corners

	50-250	500	1,000	2,000	2,500	5,000	10,000
Rounded Corners	\$7.95	\$15.37	\$17.49	\$29.15	\$32.33	\$46.64	\$92.00

(R) Rounded corners have  $\frac{1}{4}$ " radius. If another radius size is wanted, contact us.

### Special Foil Charge

\$50.20 (R) per item

Allow additional production time for special foils; please contact us. Holographic foils are available for an additional charge; contact us. See standard foil colors on page 18.

### Die Charges

Single level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing and ink with foil embossing up to 7 square inches. Dies are recycled after use. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process. Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote.

### Engraving

For engraving, contact us.

### Stock Options

#### Special Order Stock

For special order stocks, contact us. Allow additional time for special order stocks.

#### Customer Supplied Stock

Call us for a quote.

### Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Tools" tab on our website.

### Typestyles

View a variety of typestyle choices for creating a unique custom image available on the "Tools" tab online.

When your customer is looking for a simple design solution, help them enhance their stationery with our stock logos. View stock logos on the "Tools" tab online.

### Photos

Photos print best with full color and are not recommended for thermography or raised print.

### Proofs

#### Digital Proofs

- Digital proofs are free with all online orders. Share your PDF easily online.
- When you get your PDF proof, know that we save the highest resolution for printing.

#### Printed Proofs -

- Printed proofs are available for \$15. Make sure to request a proof in your order comments.
- Use this proof to evaluate copy, color, and layouts.
- Production time starts after proof approval.
- Printed press proofs are billed as actual orders of the minimum quantity, less than 10%

### Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 185 for more information.

# Specialty Printing Options: Spot Color Letterhead

*But wait - there's more!*  
**Contact us for:**

- Engraving
- Additional stocks
- Back copy
- Full color with foil stamping or embossing

### Add Foil Stamping

Foil stamping applies a metallic or pigmented foil using heat and pressure, creating a decorative and glossy effect.

## Specialty Printing Options: Spot Color Letterhead

Add these charges to the prices on page 24-25.

Add Foil Stamping	500	1,000	2,000	2,500	5,000	10,000
1 Standard Foil	\$186.60	\$197.50	\$274.40	\$321.80	\$517.60	\$966.50

(R) Production time: 5 working days. Pricing includes one standard foil and a recycled die for the first 8 square inch imprint area. Dies are not returned. Please contact us if your image area exceeds 8 square inches or appears in more than one position. Contact us for registration between ink and foil stamping.

Add Blind Embossing	500	1,000	2,000	2,500	5,000	10,000
1 Position Blind Emboss	\$186.60	\$197.50	\$274.40	\$321.80	\$517.60	\$966.50

(R) Production time: 5 working days. Pricing includes single level recycled die for the first 8 square inch imprint area. Dies are not returned. Please contact us for single or multilevel brass dies, if your image area exceeds 8 square inches or appears in more than one position.

Add Foil Embossing	500	1,000	2,000	2,500	5,000	10,000

# Envelope Style Guide

**#10 Envelope**  
4 1/8" x 9 1/2"

**#9 Envelope**  
3 7/8" x 8 7/8"

**#6 3/4 Envelope**  
3 5/8" x 6 1/2"

Envelope Templates available online.

## Peel and Seal Envelopes

No wasting time! Professional-looking, convenient strips peel away to adhere the flap without moisture. Enjoy the extended shelf life and lose the worry about incomplete seals. Available in Regular, Window, Security Tint Regular, Security Tint Window and Catalog (9" x 12" or 10" x 13").

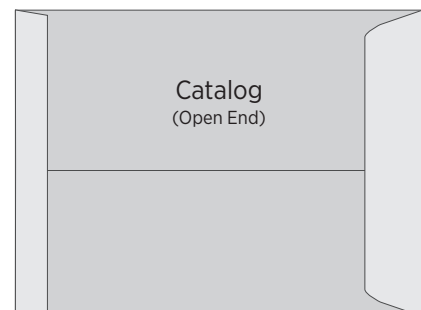

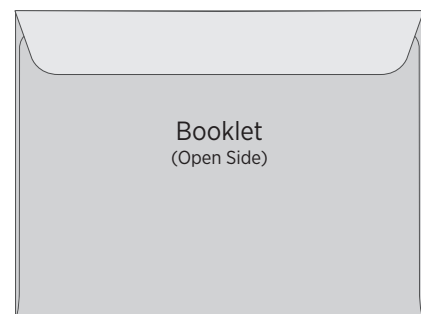

## Flip and Seal Envelopes

These self-sealing envelopes require no moisture to seal; just raise the lower flap and press. The unique double flap design keeps the gum from sticking until you're ready to mail. Available in #10 Regular or Window. Adhesive has a limited shelf life.

## Mailing Envelopes

Need more room? Looking for an envelope that gets attention? Choose 6" x 9", 9" x 12" or 10" x 13" mailing envelopes. Specify Catalog or Booklet style when ordering. If a style is not indicated, Catalog (open end) will be supplied.

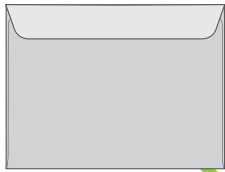

## Mailing Envelopes: Standard Gum Flap & Peel and Seal

### Features

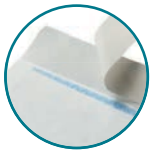

- Three standard sizes
- Two styles:
  - Catalog (open end)
  - Booklet (open side)
- Specify Catalog or Booklet style when ordering; if a style is not specified, Catalog will be supplied
- Flat print only
- Bleeds are not available
- All envelope stocks are guaranteed to run on laser printers, inkjet printers and copiers
- Back Flap printing available online for Standard Gum Flap Envelopes only

(R) Production times: Standard and PMS Inks: 3 working days; 1 Standard Foil: 4 working days; 2 Standard Foils: 5 working days. Foil pricing includes standard foil and recycled die with an area of up to 12 square inches. Dies are not returned. Contact us if the image area exceeds 12 square inches and/or appears in more than one position. Additional sizes and stocks available; please contact us for details. † Available only through manual catalog ordering.

## Specialty Printing Options: Spot Color Announcements

### Color and Class

Pairing foil stamping with spot color print combines the simplicity of a two-color design with elegant shine.

### Standard Foil Colors

## Specialty Printing Options: Spot Color Announcements

Add these charges to the prices on page 46-47.

Add Foil Stamping	100	200	250	300	400	500	1,000
1 Standard Foil	\$186.60	\$186.60	\$186.60	\$186.60	\$186.60	\$186.60	\$197.50

### Add Blind Embossing

1 Position Blind Emboss	\$186.60	\$186.60	\$186.60	\$186.60	\$186.60	\$186.60	\$197.50
-------------------------	----------	----------	----------	----------	----------	----------	----------

(R) Production time: 5 working days. Pricing includes single-level recycled die with an area of up to 12 square inches. Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds 12 square inches or appears in more than one position.

Add Foil Embossing	100	200	250	300	400	500	1,000
1 Position Foil Emboss	\$320.00	\$320.00	\$320.00	\$320.00	\$320.00	\$320.00	\$343.80

(R) Production time: 6 working days. Pricing includes one standard foil and single level recycled die with an area of up to 12 square inches. Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds 12 square inches or appears in more than one position.

**Back Copy:** Apply the back copy charge only to card announcements. There is no charge for back copy on foldover announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If no back copy color is specified, black ink will be supplied. If back copy is a different color than front copy, add an additional \$5.20 (R) for any standard and \$48.88 (R) for PMS inks.

**Inside Copy:** Apply the inside copy charge only to foldover announcements. Inside copy will be printed in flat print unless otherwise specified. Raised print is not available on the inside if the front and back panels are raised printed. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than the outside copy, add an additional \$5.20 (R) for any standard and \$48.88 (R) for PMS inks.

**Envelope Imprint:** Announcement Envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap will be used.

Add Back, Inside, or Envelope Imprint	100	200	250	300	400	500	1,000
1 Ink	\$69.25	\$75.68	\$78.84	\$81.33	\$86.41	\$91.59	\$116.31
2 Inks	\$84.85	\$91.28	\$94.44	\$96.93	\$102.01	\$107.19	\$131.91

(R) Production time: 1 additional working day for printed envelopes, back copy and inside printing.

**Printing 101**  
When it comes to the basics, here is a great cheat sheet to keep track of the sizes and options.

**7 Baronial**  
7" x 5½"

**6 Baronial**  
6¼" x 4⅝"

**5½ Baronial**  
5½" x 4¼"

**4 Baronial**  
4⅞" x 3½"

7 Baronial/A7	7¼" x 5¼"	7" x 5⅞"	7" x 5⅞"	7" x 10¼"

## Fine Printing

**Foil Embossing** | Pair the shine of foil stamping with the texture of embossing.

**Spot Color with Foil Stamping** | Foil stamping uses heat and pressure to add elegance and shine to spot color print.

**Blind Embossing** | Blind embossing presses a raised design into your stock for a subtle and stylish look.

**Engraving** | Engraving is a traditional printing method that involves incising a design onto a metal plate, which is then inked and pressed onto paper to create raised, tactile impressions, resulting in higher-quality, more formal stationery.

**Engraving** | With subtle elegance and the highest degree of professionalism, engraving is a classic process that allows for precision and fine detail.

### The Fine Print

Fine printing options are perfect for professionals with an appreciation for the finer things in print. From the subtle raised texture and detailed look of engraving, to the vibrant pairing of full color print and foil stamping, these timeless print processes make your print products and your business stand out from the crowd. We would be proud to craft the print that sets you apart from the rest. Call us to discuss your custom fine printing order.

## TIPS & INFO: Stationery

### General Information for Manual Catalog Orders

#### Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or files that are otherwise not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two working days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

#### Back Copy for Card Announcements

Apply the back copy charge only to card announcements. There is no charge for back copy on foldover announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If back copy is a different color than front copy, add an additional \$5.20 (R) for any standard and \$48.88 (R) for PMS inks.

#### Inside Copy for Foldover Announcements

Apply the inside copy charge only to foldover announcements. Inside copy will be printed in flat ink unless otherwise specified. Thermography is only available on the inside, so long as the front and back panels aren't also printed in thermography. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than outside copy, add an additional \$5.20 (R) for any standard and \$48.88 (R) for PMS inks.

#### Blank A-Style (Square Flap) Lined Envelopes

Standard Vellum announcement pricing includes blank A-Style (square flap) envelopes. See pricing pages for printed envelopes or below for A-Style lined envelopes:

- A7 White Square Flap Gold Lined Envelopes - ANE-C4-AEV15-NS24

(A7 Envelopes accommodate 7 Baronial Announcements)

Add prices below to the base Announcement price.

	100	200	300	400	500	1,000	Add'l 100
Lined Envelope upcharge	\$10.50	\$20.90	\$31.30	\$41.80	\$52.20	\$104.30	\$10.40

(R)

#### Envelope Printing

When ordering envelopes, specify position of copy on envelope corner or flap. If no position is specified, upper left corner printing will be supplied. If the envelope is printed on the front and the flap, add the charge below to the base price. Envelope flap will be flat printed.

	500	1,000	2,000	2,500	5,000	10,000
1 Ink	\$55.33	\$57.88	\$62.43	\$64.34	\$76.00	\$99.11
2 Inks	\$115.22	\$117.77	\$122.32	\$124.23	\$135.79	\$159.00

(R) Production time: 1 additional working day for back copy.

If flap copy is a different color than front copy, add an additional \$5.30 (R) for any standard and \$49.82 (R) for PMS ink. When an envelope is engraved, embossed or foil embossed, the impression will show through on the back of the envelope. If you do not want the impression to show through, we can open the flap, engrave or emboss your copy and close the flap. This must also be done if you want any of these processes on the envelope flap. Add \$36.00 (R) per 1,000.

Announcement envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap imprint will be supplied.

Folding for Announcements are scored and shipped flat. We will fold announcements for \$15.00 (R) per 1,000 minimum.

#### Phantom Watermark for Letterhead

A flat printed 5% screen of your logo printed in the center of your letterhead to simulate a paper watermark.

Add prices below to the base letterhead price.

	500	1,000	2,500	5,000
Phantom Watermark	\$32.60	\$41.90	\$59.80	\$87.60

(R) Production Time: 1 additional working day for phantom watermarks. Additional quantities available online.

#### Bleeds

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed 1/8" beyond the paper size, on each side.

#### Spot Color Letterhead & Announcements

	500	1,000	Add'l 500
Standard & PMS Inks	\$10.00	\$10.00	\$3.40

(R) Prices shown are per edge.

Request a quote for bleeds:

- If more than 2 edges bleed
- If bleed area exceeds 1/8" in thickness
- If letterhead bleed top and bottom

#### Margin Requirements

Envelopes: allow 1/4" from the top and side.

Letterhead: 3/8" at the top and 1/4" from the sides and bottom.

Full Color Announcements: 1/4" margin on each side.

Spot Color Announcements: 3/8" margin on each side.

#### Registration

Registration is when two inks or foils come within 1/16" or touch.

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and die cutting
- Ink and foil stamping
- Flat and thermography
- Ink and foil embossing
- Engraving or letterpress
- Ink and blind embossing
- and any other process

	500	1,000	Add'l 500
Registration between 2 inks	FREE	FREE	FREE
Registration between 2 foils	\$40.00	\$40.00	\$6.75

(R)

#### Special Foil Charge

\$50.20 (R) per item

Allow additional production time for special foils; please contact us for details.

Holographic foils are available only through manual catalog orders for an additional charge; contact us for details. See standard foil colors on page 48.

#### Die Charges

Single-level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing and ink with foil embossing up to a designated per-square-inch imprint area as follows:

Letterhead: 8 square inches

Envelopes: 4 square inches

Announcements: 12 square inches

Dies are recycled after use. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process.

Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote.

# How to order FasTurn® Labels

**FasTurn®** Batching our most popular sizes and stocks allows us to expedite the manufacturing of select items.

Look for the FasTurn® icon for products that are ready to ship in 2 business days.

## Step 1 Select Shape and Size

**Choose from hundreds of standard shapes and sizes.** If you don't see your label option listed, please call.

## Step 2 Select Ink Color(s)

**Select one or more Standard Inks or Four Color Process.**

- Price includes one ink; PMS inks \$50.00 (V) each.
- Additional ink charge on price grids.

### Standard Inks

Available on all stocks. The PMS ink colors here are listed for reference only.

We'll match your Pantone! If color is critical, Pantone color matches are available for \$50 (V) per ink.

Most orders use CMYK to match the colors you need.

### Process Imprint

Full color available on that stock.

## Step 3 Select Stock

### Stocks

Choose a stock from the grid on the right. Include the one or two letter stock code when ordering.

Unique stocks for specific applications will be shown on each product page.  
Manufactured in the USA

Prime labels act as an advertisement and are the primary label on your product or package. Vibrant eye-catching designs, embellishments and decoration help showcase your brand. Prime labels are the primary label on your product, working as an advertisement. Prime labels are perfect for increasing awareness.

### Popular Stock Picks

#### White Gloss (A)

The glossy, smooth surface of this versatile stock makes the colors on the label shine.

- Semi-gloss paper stock for high-quality detail reproduction
- Add foil stamping to your label to capture the eye of the consumer with extra shine

#### Clear Film BOPP (BJ)

When you want a durable no-label look, choose this versatile film option.

- High gloss film stock
- Excellent for curved surface application
- High tear resistance
- Water, oil and moisture-resistant

#### Estate #8 (SW) & Estate #9 (ET)

Premium stocks for an upscale appearance.

- Estate #8 has a white vellum face stock and Estate #9 has a cream laid finish paper face stock
- Withstands water and moisture without falling apart while the permanent adhesive is removable in a minimum of 100°F water
- Poly-coated liner for high-speed machine applications
- Excellent for wine, gourmet food, and high-end labels

### Testing a new craft brand?

Low minimums help sell small batches and seasonal releases. You can even add consecutive numbering for limited editions.

Labels are the key to selling good wine – they tell a compelling story and share the inspiration. Choose a label that does your brand justice.

### Popular Stock Picks

#### Silver Film BOPP (KR)

When you need something more durable than paper, choose this versatile film option.

- High gloss film stock
- Excellent for curved surface application
- High tear resistance
- Water, oil and moisture-resistant
- Mirror-like reflectivity

#### White Gloss (A)

The glossy, smooth surface of this versatile stock makes the colors on the label shine.

- Semi-gloss paper stock for high-quality detail reproduction
- Add foil stamping to your label to capture the eye of the consumer with extra shine

#### Estate #8 (SW) & Estate #9 (ET)

Premium stocks for an upscale appearance.

- Estate #8 has a white vellum face stock and Estate #9 has a cream laid finish paper face stock
- Withstands water and moisture without falling apart while the permanent adhesive is removable in a minimum of 100°F water
- Poly-coated liner for high-speed machine applications
- Excellent for wine, gourmet food and high-end labels

# freeform™ Labels

Labels  
& Stickers

Use freeform™ to create labels in any shape with no die charges and low quantities. Ideal for logos, prototyping, seasonal products, events, and more.

## Popular Stock Picks

### Silver Film BOPP (KR)

When your space calls for more durability than paper, choose this versatile film option.

- High gloss film stock
- Excellent for curved surface application
- High tear-resistance
- Water, oil and moisture-resistant
- Mirror-like reflectivity

### White Gloss (A)

The glossy, smooth surface of this versatile stock makes the colors on the label shine.

- Semi-gloss paper stock for high-quality detail reproduction
- Not suitable for write-on additions to the label

### White Film BOPP (WB)

When you need something more durable than paper, choose this versatile film option.

- High gloss film stock
- Excellent for curved surface application
- High tear-resistance
- Water, oil, and moisture-resistant

## freeform™ Labels

**22**  
Stock Choices

Use freeform™ to create a unique shape.

Process Color includes FREE UV Varnish for protection against scratching and moisture.

Priced by square inch up to 24 square inches.

Quantities Start at **100**

Starting at **\$208**

Our freeform™ laser cutting technology allows you to design durable labels in any shape with no die cutting charge and low minimum quantities. Labels can be used for anything from stickers for a recreational vehicle to safety labels on machinery that is used outdoors.

### Popular Stock Picks

#### White Polyolefin (J)

This stock will allow labels to withstand harsh elements and rigorous applications.

- Flexible, weather-resistant film holds its shape nicely, similar to vinyl
- Great for sheeted applications
- Suitable for signage and bumper stickers
- Laminated for added protection and durability

#### Clear Polyester (Y)

Use clear stock for a no-label look. Ideal for glass and car windows.

- Durable weather-resistant stock
- Laminated for added protection and durability
- Use white back-up to ensure ink opacity

#### Silver Polyester (X)

This stock is ideal for labeling equipment that is used outdoors, for recreational vehicles.

- Durable weather-resistant stock
- Laminated for added protection and durability
- Mirror-like reflectivity

# Outdoor Labels

## Features

- For ink choices; see page 76.
- White backup is suggested on clear stocks – see page 88
- **FREE** gloss lamination provides protection against moisture, scratching, and outside elements.
  - Matte lamination is available upon request  
(Recommended if you plan to write on the label).
- Sunscreen lamination helps combat UV rays and may extend the fade-resistance of some inks (see price grid below for additional charge).
- Consecutive numbering is available; see page 88.
- Variable data and imaging available on labels printed with Process Color; see page 184.

Locate the size needed and the corresponding price group letter. Then find that price group and quantity in the grid on page 85.

# Repositionable Window Decals

## Helpful Information

- For ink choices; see page 76.
- **FREE** white ink backup automatically provided on Clear Window Lite stock for increased readability (see page 88 for example).
- Fade resistance varies depending on ink color and/or geographic location.
- Special adhesive that allows you to remove and reposition multiple times and leaves no residue when removed.
- Indoor and outdoor applications.
- **FREE** gloss lamination provides protection against moisture and scratching.
  - Matte lamination is available, if requested. *Recommended if you plan to write on the decal.*
- Sunscreen lamination helps combat UV rays and may extend the fade resistance of some inks. See price grid for additional charge.
- Variable data and imaging available on decals printed with Process Color; see page 184.

*Inside or outside read?*

Are you reading the decal **from the inside** or **the outside** of the window?

Decals can be read from the inside of a window OR the outside (if the text is reversed). Make sure to indicate your choice when ordering. Reversed copy is only available on Clear Window Lite stock.

## Best Practices for Orders

Print-ready artwork is defined as artwork that is provided at 100% size, requires no typesetting and has a 1/8" margin on all sides, including a bleed when needed. Exact position of text and graphics should be indicated. For copyrighted images, submit an authorization form with your order.

### Changes or Cancellations

We offer flexibility and customization options throughout the order process. For modifications or updates to orders in progress, there might be a slight adjustment to the charges and/or time. This allows us to take care of your needs and ensures that your order aligns perfectly with your requirements. If you need to cancel an order that's already in progress, to cover the work that has been done, a minimum fee of \$25.00 (**net**) for cancellations or changes is applied. If an order has already been printed, the full value of the order will be charged.

### Consecutive Numbering

Indicate a starting number and format (01,001,0001) when ordering. Consecutive numbering is available on most stocks and provided on rolls. Call for pricing on individually cut and numbered labels.

Add the prices below to the base label price.

	100	250	500	1,000	2,000	3,000	5,000	10,000
(V)	\$97.00	\$97.00	\$97.00	\$97.00	\$105.00	\$112.00	\$127.00	\$165.00

### Copy/Stock/Ink Changes

If you have copy, stock or ink changes for multiple lots or versions of labels, we may be able to group your order for better pricing. Contact us for details.

### Overruns

Some orders may have additional quantities due to equipment setup - these are yours to keep with no additional charges.

### Pantone Match/PMS Inks

We'll match your brand colors exactly. There's a \$50.00 (**V**) charge per ink and you let us know exactly which one(s) during the ordering process.

### Proofs

Request proofs upon ordering, and receive same-day proofs if ordered by 12 p.m. CST. Proofs are available electronically (first one's free!). Additional proofs available for \$18.00 (**V**). Upon approval, we'll promptly create your order. Cancelled orders or those made after 30 days from last proof have a \$18.00 (**V**) minimum charge. Stock colors aren't represented on electronic proofs.

### Screens and Registration

Screens are available with a 5%-95% tint. Registration of color-to-color is within industry standards of 1/32".

### Standard Inks

All standard inks are transparent. Add white backup on clear stocks for opacity. The appearance of some ink colors will vary when used on colored stocks.

### Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 185 for more information.

## Creating Your Files

Create one item sized correctly per document. Placed graphics and text should be sized at 100%. For freeform™ laser cut labels, create a layered file that includes the cut path.

### Color Requirements

#### Spot Color Printing

Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. For freeform™ laser cut labels, create a layered file that includes the cut path.

#### Process Color Printing

We recommend a minimum resolution of 300 dpi for any Photoshop file or placed (raster) image for best quality.

For the best printing results, ensure that all elements in the file are colored using CMYK colors instead of RGB, indexed color, etc. By using CMYK, we can guarantee that the colors will appear exactly as intended when printed. Using other color formats may lead to variations in color appearance.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using Process Color, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in 4 color will differ from PANTONE® spot colors, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.

### Fonts

To ensure optimal results, it is essential in your illustration program to convert all text to curves or create outlines in your files. This will help maintain the integrity of your design. Additionally, to preserve the intended aesthetics, we advise against using the stylization palette for bold, italic, drop shadow, or outlining effects on fonts. If you are using fonts not owned by Navitor, we recommend creating outlines in an illustration program before submitting your artwork. This step ensures consistency and smooth processing.

### Margin Requirements

Labels must be set up with at least a 1/8" margin.

### Bleed Requirements

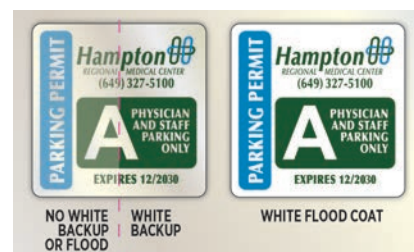

1/8" should be allowed on all sides. Example: Artwork for a 2" x 3" label with bleeds on all four sides would measure 2 1/8" x 3 1/8".

### Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

### White Backup

Clear stock labels are a popular choice for many uses, but sometimes it needs a little help to ensure they are visible, easy to read and communicate effectively. White backup is the process of applying white ink directly behind the artwork to make it easier to read on clear stocks.

# New! Product Line

Folders

### What is PolyWeave®?

PolyWeave® is a material that is made of poly and has a fabric woven through it that gives it superior strength.

New!

These products are made from **polypropylene, a durable material that is tear, water, and stain resistant and virtually odorless.**

Its sturdy construction has the look and feel of quality and value not found in similar-priced paper and vinyl items AND it lasts much longer.

**Call or email to get more information!**

**State-of-the-art print technology** including pad printing, silk screening, and heat transfers for 4-color process (on select items), creates a unique, branded specialty for your customer.

Folders

**Artistic assistance and speedy delivery**

Enjoy free samples and expert design assistance from our in-house art department. Get orders quick with our fast turnaround times. Improve accuracy with a free drawing included with each order, and breeze through reorders.

### General Information

Scan to read the most-often asked questions, and the details to help your ordering process go as smoothly as possible.

### Current Stock Guide

No need to search, current stocks are listed and updated in real time. Scan now!

### Imprint Upgrades

(R) Production time: 1 working day. 875 per carton.

## General Ordering Information

### Art Charges

For layouts requiring special attention, such as artwork unsuitable for reproduction or logos needing color separation, modest art charges will be applied to guarantee excellent reproduction.

If your files are not print ready, don't worry! Our skilled team can handle any necessary manipulation to ensure a flawless final product. Additionally, if you require scanning, design, or typesetting services, just reach out to us, and we'll provide you with a quote for prep charges.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

### Artwork

Provide clean, flat, Black and White, camera-ready artwork scaled to fit the imprint area.

### Booking

Sets of snap-set forms bound together. Our custom books are bound together with staples and most often a wraparound cover. The cover is 80# White vellum stock which doubles as a divider to separate the form being used from the unused forms.

### Logos

View our stock logo selection on the Tools tab online. Custom logo artwork should be provided in solid Black. Pre-screened artwork does not reproduce well. Logos will be placed in the upper left-hand corner of the designated imprint area unless indicated otherwise.

### Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Production time starts after proof approval.

### Snap Sets

Also known as snap-outs, snap apart or unit sets. Snap sets are multi-part forms that have a perforated, tear-off stub on one edge.

### Special Setup

A special set-up charge of \$37.10 (R) will be added to the order when adding copy that is requested outside of the designated printing area on the preprinted forms. A previous sample or sketch of additional copy placement should be provided with the order.

### Typetypes

**All Booklets and Snap Set forms are typeset in:** Optima with the exceptions of: Receipt Books RBB2 and RBB3, Road Service Book, Sales Books G2SB and G3SB. Snap Set Forms F6NC are typeset in Helvetica Neue LT Standard Bold, upper and lowercase.

**Register Forms are type set in:** Goudy. The main line (line 1) of copy will be typeset in 12 point uppercase characters. The remaining copy (lines 2-4) will be typeset in 10 point upper and lowercase characters.

### Laser, Three-to-a-Page Checks and Deposit Slips are typeset in:

**Company Name:** Helvetica Bold, 10 point uppercase characters

**Company Address:** Helvetica Regular, 8 point uppercase characters

**Financial Name:** Helvetica Bold, 8 point uppercase characters

**Financial Address:** Helvetica Regular, 7 point uppercase characters

**Routing/Account Numbers:** Magnetic Character Recognition (MICR) Standard 7 point

### Laser Checks Basic, Standard and Standard Plus:

**Firm Name:** Helvetica Bold, 10 point uppercase characters

**Address:** Helvetica Regular, 7 point uppercase characters

**Financial Name:** Helvetica Regular, 6 point uppercase characters

**Financial Address:** Helvetica Regular, 6 point uppercase characters

**Routing/Account Number:** Magnetic Character Recognition (MICR) 12 point

## Check Security Features

### V-Dot Technology

Triggers the anti-copy chip in most color copiers. When the chip is activated, the copy becomes unusable.

### Photocopy Void\*

The word "Void" will appear when photocopied.

### Security Warning Band Border

The most popular security border available.

### Padlock Icon

Indicates check meets industry standard security guidelines listed on back.

### Invisible Fluorescent Fibers in Paper

Fibers in paper stock are revealed under a black light.

### Heat-Sensitive Thermochromic Icon

Red key disappears when subject to heat or touch (on back for Tier 3).

### Chemical Stain

Sensitized paper reacts to chemical attempts to alter check.

### Microprinting on Signature Line

Reads "Authorized Signature." When copied or altered this line is not readable.

### Hologram\*\*

Three-dimensional metallic image fused on paper.

### Pigment-Based Ink

Pigment-based ink printed areas will NOT wash away when chemical alteration attempts are made.

### Padlock Icon on Back

Lists additional, visible and concealed security features.

### True Fourdrinier Watermark\*\*\*

A diamond-shaped watermark can be seen only when held at a 45-degree angle and cannot be altered or reproduced.

### Screened Check Back:

Deters duplication. Screen does not reproduce when copied.

### Mobile Check Backer

### Digital Verification Grid

The verification grid appears on the original and disappears when photocopied.

### Non-Negotiable Phrase

Red key disappears when subject to heat or touch (on back for Tier 3).

\* Photocopy Void, optional on Tier 3 Checks; available with Scallop Void on Tier 2 and Stock Laser Checks.

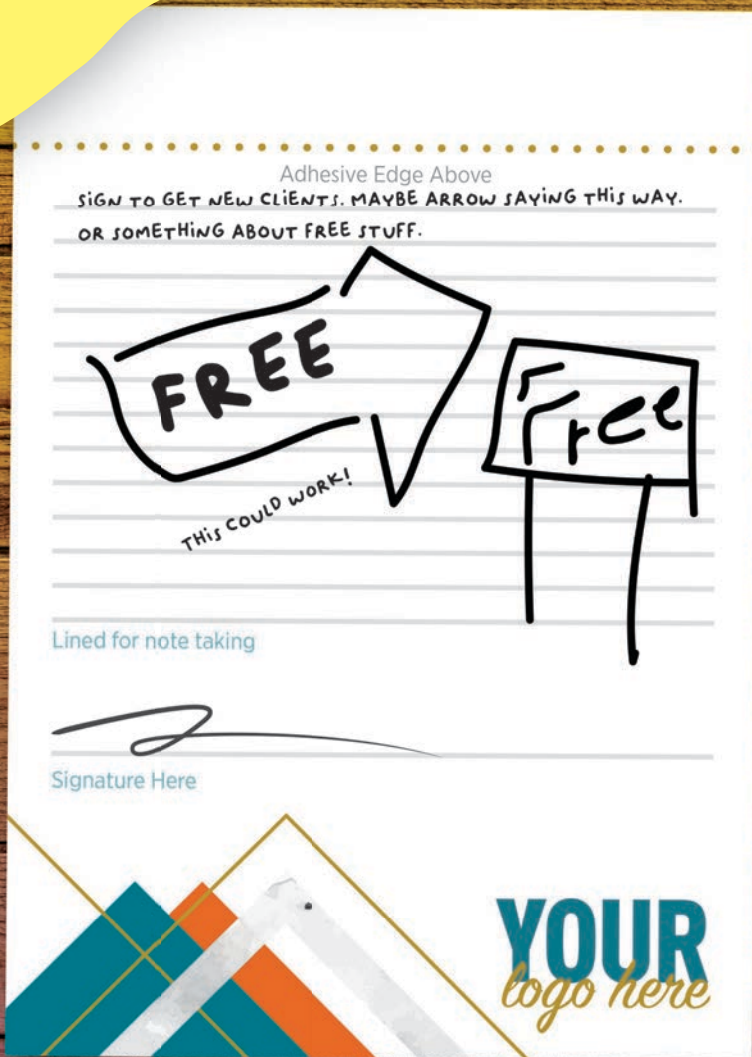

\*\* Hologram available only on Tier 2 Stock Laser Checks with Scallop Void.

\*\*\* True watermark available only on Tier 3 Laser Checks.

(R) Production time: 12 working days.

## General Ordering Information

### Graphic Design - Artwork Editing Charges

Art charges will apply for layouts requiring special attention, i.e., artwork that is unsuitable for reproduction, logos requiring color separation, or files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

### Bleed Requirements

Artwork should extend  $\frac{3}{16}$ " (.1875) beyond paper size on all sides. No additional charge on catalog quantities.

### Long Run Post-it® Notes

Artwork should extend  $\frac{3}{16}$ " (.1875) beyond paper size on all sides for bleeds.

### Post-it® Notes Cubes (bleeds only available on side print)

Artwork should extend  $\frac{1}{4}$ " (.25) beyond paper size on all sides.

### Cancellation Charge

Cancellations require a payment of \$55.00 per part/name plus any accrued charges (artwork, proofs, materials, etc.).

### Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Add 2 working days to production time when requesting a proof. Production time starts after proof approval.

### Screens

Screens 10% or lower in the writing area are highly recommended. Pre-screened artwork is not recommended.

Recycled Paper: Meets Federal requirements for recycled content.

### Personalized Acrylic Holders with Spot Gloss Finish

The Spot Gloss Finish is a clear coating that you can put over any area in your design. To set up your art file, create one layer with the complete full color design and another layer with just the elements you want to have a spot gloss finish. Use PMS 100 to represent the areas where the spot gloss will be applied. We recommend using a minimum line weight of 3pt and a minimum text size of 6pt. Spot Gloss on Acrylic Holders is only available through manual catalog ordering.

Press file example with a spot gloss layer

PMS 100

### Variable Data

#### Short Run Quantities

Available on manual catalog orders of Full Color Post-it® Notes quantities of 320 pads. No additional production time is required.

#### Variable Text — \$31.25 (V)

Variable text is when the text changes from sheet to sheet within the pad. There is no limit to the number of characters or lines of text that can change per pad/sheet with this charge.

#### Contact Us For More Information

- **Variable image:** an image or artwork changes on the Post-it® Notes pad from pad to pad or sheet to sheet; please contact us for more information.
- A combination of variable text and variable image.

#### Long Run Quantities

- Contact us for Long Run Variable Text & Image costs.

## General Information For Manual Catalog Orders

---

### Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Add 2 days to production time. Virtual proofs are available for \$15.00 (R). Add up to 4 additional days to production times.

### Special Services

We are happy to help correct and edit any art files to ensure high quality production. This fee is \$15 and covers most edits; we will notify you if further editing is required.

## Creating Your Files

---

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

### Artwork

You will need to provide clean, black and white or full color artwork scaled to fit the impression area. Black and white artwork should be sent without screens or shading. Black and white bitmap images should be submitted at 600 dpi. CMYK and grayscale images should be submitted at 300 dpi. All artwork should be sized at 100%.

All placed graphics and images need to be high quality and colored according to our guidelines for the product ordered. All supporting graphic files used within your layout must be sent along with the layout file, placed at 100%.

**Screens:** We do not recommend using screened colors on any artwork for promotional products.

### Fonts

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outlines on your fonts. If you are using fonts not owned by Navitor®, outlines must be created in illustration program before submitting your artwork.

### Graphic Requirements

We accept electronic art created in the following applications: Adobe® Illustrator®, Adobe® Photoshop®, and Adobe® InDesign®.

Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.

Compressed files can be sent in the following formats: .sit, .sea, and .zip.

### Color Requirements

We now have an Accurate Color System so you can send your files colored using the intended PMS color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

### Spot Color Printing

Please submit black and white bitmap images at 600 dpi and grayscale images at 300 dpi for standard spot printing.

**Imprint Colors:** Colors on paper may print differently on other substrates. The imprint colors are intended as a guide only, not an exact representation. PANTONE MATCHING SYSTEM® is not available.

### Full Color Process Printing

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

# TIPS & INFO: Promotional Products

## Imprint Colors

The color of the ink used in your logo and/or design to be printed on the selected promotional product.

### Special Artwork Instructions:

- Clear and frosted decals; artwork cannot include white; any areas colored white will not print.
- Only Clear and Frosted Decals can be applied to the inside of a window to be readable from the outside. If this is desired, it needs to be specified when order is placed and artwork needs to be mirrored when sent in. See example to the right.

- (R) • Pricing based on all decals printing the same artwork
- Variable copy on static design is included; desired copy changes must be sent in electronically
  - If bleeds are desired, artwork will need to extend ¼" from the edge
  - Minimum temperature for application is 40 degrees Fahrenheit
  - For indoor applications—anticipated lifespan is 4 years for opaque decals and 2 years for clear decals and frosted decals

- Can be used for short-term outdoor use; exposure to extreme conditions (tropical climate, high humidity, high UV-light exposure or polluted areas) can decrease the durability of the decal
- Not recommended for the outside of vehicle windows
- Custom sizes available; contact us for quotes

Normal Artwork

Mirrored Artwork

## Features

- Gloss 4 mil. vinyl, adhesive backed
- Digital full color, single sided
- Low-tack repositionable & removable adhesive with peelable liner
- 3 working days
- No artwork setup charges

USE ON CHALLENGING SURFACES

Carpet, tile, concrete, wood, stone, metal & glass

# TIPS & INFO: Banners, Decals & Signage

## General Information

---

### Print-on-Demand

Print-on-demand technology allows you to print only what you need, when you need it, which helps you better manage your inventory, reduce waste and save money.

### Minimum Order Quantity of 1

Do you just need one or two banners or signs? No problem! You don't have to order extra to get the one you need. Order just what you need, when you need it.

### Variable Printing

With variable printing technology, each item in a production run can be personalized. Whether you are ordering signs or banners, each item in your order can be uniquely personalized.

### Fast Production Times

Do you need a rush on your order? Contact us right away and we'll expedite your order. Rush charges may apply.

### Material Selection

The printing industry is continually developing new materials and substrates to print on. Our relationships with the largest suppliers means no one has a larger media selection.

## Xstamper® Pre-inked Date Stamps

Item Number	Description	Impression Size H" x W"	Overall Size H" x W"	Max # of Lines	Max # of Characters (per line)	Price	
						1	5
1XD-N77	Xstamper® N77 Xpedater® (outer ring and date/copy are both available in any single color)	Top: ⅜" x 1⅜" Bottom: ⅞" x 1⅜"	1¼" Diameter	Top: 1 Bottom: 2	Top: 15 Bottom: 15	\$99.60	\$94.60
E. 1XD-N82	Xstamper® N82 VersaDater® (date available in black, red or blue; copy available in any single color)	Top: ¼" x 2½" Bottom: ¼" x 2½"	1⅝" x 2⅞"	Top: 2 Bottom: 2	Top: 30 Bottom: 30	\$93.95	\$89.25

- (O) • If an ink color is not specified when ordering, black will be used
- Refill inks can be found on page 179; use Xstamper® refill ink
  - Available typesyles can be found in the General Information guide, which can be accessed through the QR code provided at the end of this section
  - Notary stamps will be set to state specifications. The State Notary Certificate is required with each notary stamp ordered.

# Traditional Rubber Stamps, Stamp Refill Ink & Pads

## Features

- Economically priced traditional wood handle rubber stamps in a variety of sizes
- Use with a stamp pad
- 2 working days

When ordering a traditional rubber stamp, remember to order a felt pad for inking

## Traditional Rubber Stamps

Item Number	Description	Impression Size H" x W"	Max # of Lines	Max # of Characters (per line)	Price	
					1	5
1RF-04	Traditional Rubber Stamp	3/8" x 1 1/8"	1	27	\$15.60	\$14.80
1RF-25	<b>Popular Pick!</b> Traditional Rubber Stamp	1/2" x 2"	3	27	\$16.15	\$15.35
1RF-30	Traditional Rubber Stamp	5/8" x 2"	4	27	\$18.85	\$17.90
1RF-47	Traditional Rubber Stamp	3/4" x 2"	5	27	\$19.65	\$18.65
1RF-69	Traditional Rubber Stamp	1" x 2"	7	27	\$22.35	\$21.25
1RF-79	Traditional Rubber Stamp	1 1/4" x 2"	9	27	\$22.80	\$21.65
1RF-142	<b>Popular Pick!</b> Traditional Rubber Stamp	2 7/8" x 5"	22	69	\$42.65	\$40.50

- Stamp pads can be found at the end of the Stamps category
- Available timesteps can be found in the General Information guide, which can be accessed through the QR code provided at the end of this section
- Contact customer service for additional sizes
- Your stamp mount may be cut shorter than the size you ordered to best accommodate the size of your impression. The polymer stamp die may be trimmed to avoid overprinting of ink where there is no impression

For optimal performance, use refill ink that corresponds to your stamp brand.  
Refill Ink Production Time = 2 working days

## 2000 PLUS<sup>®</sup> Self-Inking Stamp Refill Inks

Item Number	Description	Ink Color	Price Each
1SO-90675	2000 PLUS <sup>®</sup> Self-Inking Stamp Refill Ink	Black 0.9 oz.	\$10.80
1SO-90676	2000 PLUS <sup>®</sup> Self-Inking Stamp Refill Ink	Red 0.9 oz.	\$10.80

# TIPS & INFO: Badges & Stamps

## General Information

---

### Print-on-Demand

Print-on-demand technology allows you to print only what you need, when you need it, which helps you better manage your inventory, reduce waste and save money.

### Minimum Order Quantity of 1

Do you just need one or two badges or stamps? No problem! You don't have to order extra to get the one you need. Order just what you need, when you need it.

### Variable Printing

Each item in a production run can be personalized through a bulk import. Think of name badges with an easy spreadsheet of names and titles to create badges for hundreds of volunteers or employees.

### Fast Production Times

Do you need a rush on your order? Contact us right away and we'll expedite your order. Rush charges may apply.

### Material Selection

The printing industry is continually developing new materials and substrates to print on. Our relationships with the largest suppliers means no one has a larger media selection.

*Access QR code

# Our Promise

### Color & Quality Guarantee

Part of a select group of print service providers, our **G7® certification** ensures your all-important brand will always be represented consistently.

### Products That Sell

With more than 8,000 core products to order online, we are a top trade printer that moves your business forward.

### Everything You Need

From the small stuff to the big picture, we have tools and print experts to grow your sales.

## Two Ways to Order

Price it,  
Buy it Online.

Or Quote it.

## P.S. Looking for Free Samples?

Request **FREE** sample kits and materials online.

## Creating Your Files

Follow this file prep guide to ensure accurate file setup and outstanding print results.

### Fonts:

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

### Margin Requirements:

Generally products should be set-up with at least 1/8" (.125") margin.

### Bleed Requirements:

Allow 1/8" (.125") on all sides. Please make sure the text still maintains the required margin even when graphics bleed.

### Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

For full color printing, every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

### Using "Printing Black" for a True Black

To ensure the best possible results, many print products should use Printing Black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black. Recommended for full color products:

- Any raised print products; this ensures an optimal raised appearance
- Flat or raised print orders which include black in registration with other colors, heavy ink coverage, or lines thicker than 2 points

### Full Color Raised/Thermography Printing

Light skin tones, light colors, and low screen percentages will have a negative impact on the raised appearance of your product. For best raised printing results, we recommend that the Total Area Coverage (TAC) be at 150% or higher. TAC is the total of the CMYK value of a color. For example, a card using a light blue color with a CMYK mix of 89, 10, 0, 0 has a TAC of 99%. This color will not work well with thermography because there is not enough ink coverage to hold thermography powder.

### Spot Color Printing

Spot orders should be colored using the correct spot color swatch. You can create your own spot swatch or you can download and install our Swatch Library from our website. For PANTONE MATCHING SYSTEM® colors, it is best to use the PANTONE solid uncoated library that is already loaded within the program.

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality. Black & White Bitmap Image Mode should be used unless screens are present, Grayscale Image Mode should be used if screens are present.

### Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through the process of setting up the file. The library and instructions for installation can be found under "Tools" on our website.

## Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing.....	Conversion ( <b>CRUCIAL</b> for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

## Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink.....	Black & PANTONE® Spot Color Swatch*
2 PMS Inks.....	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not specified on your order blank.

\*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

## Custom Options and Capabilities

Explore a vast selection of 8,000 products and options available online, offering you a wide range of choices to order and price products. Additionally, we offer an array of custom options, catering to your unique needs and preferences, including:

- **Sizes & Quantities**  
Request custom quantities and unique sizes to best suit your needs
- **Hole Drilling**  
Adding pre-drilled holes for binder inserts and marketing materials can make for easy-to-file processing.
- **Numbering**  
Consecutive numbering can start at any number and works well for raffles, specialized promotions, and more.
- **Perforating**  
Create that custom easy tear-off piece on any marketing tool.
- **Scoring**  
Scoring enables easy and accurate folding capabilities for your kits and events.
- **Shrink Wrapping**  
This process is a helpful option for unique batching, kits, and orders for your distribution needs.
- **Special Order Papers**  
Many additional papers are available in-house or can be found externally that will work perfectly on your next custom project.

### Graphic Design & Editing

We can help tweak your artwork to make it print-ready, or do full design services for rebrands. Look under "Tools" on our website for more details.

## Electronic Guidelines

### Color Requirements

You can now send your files colored using the intended PMS color instead of having to color it using CMYK colors, excluding Enhanced Finishes orders. Every effort will be made to print your intended color within acceptable standards.

### Spot Color Printing

1. Raster Artwork: Submit black and white images or grayscale images at 600 dpi for standard spot printing. If raster artwork is placed into a layout program (InDesign, Quark, CorelDRAW, etc.), the artwork can be colored per our guidelines. (See "Coloring Your Files.")
2. Vector Artwork: Every element of the file must be colored with spot colors (no RGB, CMYK, etc.). (See "Coloring Your Files.")

### Full Color Process Printing

1. We recommend a minimum resolution of 300 dpi for any Photoshop files or placed (raster) image for best quality.
2. Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.).
3. For the best printing results, ensure that all elements in the file are colored using CMYK colors instead of RGB, indexed color, etc. By using CMYK, we can guarantee that the colors will appear exactly as intended when printed. Using other color formats may lead to variations in color appearance.
4. Pantone® colors — While we are often able to closely reproduce a spot PMS® ink using full color process, PMS® spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from Pantone® spot colors, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.
5. Avoid modifying Pantone® colors from their original values. If your order is full color, any modifications to Pantone® colors will need to be converted to CMYK color equivalents.

### Printing Black vs. Black for Full Color

1. Full Color Flat — Use Printing Black (C80%, M80%, Y80%, K95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage and for bold type or lines that are thicker than 2½ points.
2. Full Color Raised BC — Always use the CMYK percentages above for "Printing Black" regardless of registration or coverage.
3. Full Color LH or ENV — Use Printing Black (C80%, M80%, Y80%, K95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage and for bold type or lines that are thicker than 2½ points.

### Coloring your files for Spot Color Printing

### Native Applications

We accept files created in the following native applications:

Acrobat® PDF.....	Mac & PC <b>PREFERRED FORMAT</b>
Adobe® InDesign®.....	Mac & PC
Adobe® Photoshop®.....	Mac & PC
Adobe® Illustrator®.....	Mac & PC

We **DO NOT** accept files created in the following native applications:

CorelDRAW®.....	PC only
Microsoft® PowerPoint®.....	Mac & PC
Microsoft® Excel®.....	Mac & PC
Microsoft® Word®.....	Mac & PC
Microsoft® Publisher®.....	PC only
QuarkXPress®.....	Mac & PC

### Application Requirements

#### PDFs — Macintosh® or IBM® Compatible

1. All fonts must be embedded.
2. All elements of the file must be colored per our guidelines.
3. All placed graphics and images need to be high quality, colored according to our guidelines (see "Coloring Your Files") for the product ordered. Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.
4. Name the PDF's without punctuation of any kind (except .pdf) or special characters. File names should be short.

#### Adobe® InDesign® — Macintosh® or IBM® Compatible

1. Change all text into outlines in your document.
2. If you are using an imported graphic in your InDesign® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save as an INDD file.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

#### Adobe® Photoshop® — Macintosh® or IBM® Compatible

1. Files must be saved as a TIFF without compression.
2. If using spot printing, do not color an image in Photoshop®.
3. Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. Images that come to Navitor® at a lower quality than what is recommended will be output as sent.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")
5. All files need to be submitted at the size being used for printing.
6. If bleeds are needed, allow ¼" (.125") on all sides unless otherwise noted.

#### Adobe® Illustrator® — Macintosh® or IBM® Compatible

1. Change all text into outlines in your document.
2. If you are using an imported graphic in your Illustrator® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save the file as an Illustrator EPS.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

\*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order. PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

## Variable Data Guidelines

Variable data is when text or image on the product changes from sheet to sheet. This can include text, images, or sequential numbering (or a mix of all of them!).

### How to order products with variable data

- Provide a mockup of the finished product.
- Provide your art files matching templates provided online.
- Provide a spreadsheet file (such as a CSV) that includes field headers like name, title, email, phone, etc.

The spreadsheet file contains variable information required for printing on the product. For most product lines, Excel files (in CSV format) work perfectly.

For variable images, include the names of the relevant image files in the spreadsheet and an image placeholder in the proof. Be sure to submit your image files along with the rest of the order. Variable Image orders require all files to be submitted and reviewed before a quote is provided. Variable data is not hard but it can be tricky. Contact us for support at any point in the process.

### Variable Data Example

	A	B	C	D
1	<b>Name</b>	<b>Start Date</b>	<b>End Date</b>	<b>Animal Image</b>
2	Sarah	September 4	October 4	YellowLab.eps
3	Kara	September 7	October 7	LoveBirds.eps
4	Abigail	September 14	October 14	Collie.eps
5	Jeannie	September 17	October 17	Bunny.eps
6	Ann	September 23	October 23	RedPuppy.eps
7	Shelley	September 25	October 25	SiameseKitten.eps

### Variable Data

Add charges below to your order. Variable Image orders require a quote.

Description	Item Number	Price Per Order				
Variable Text	AEC-VTEXT-NS24					\$31.25
		<b>100-1,000</b>	<b>2,000</b>	<b>3,000</b>	<b>5,000</b>	<b>10,000</b>
Variable Text for Labels		\$97.00	\$105.00	\$112.00	\$127.50	\$165.50

(V) Production time: 1 additional working day.

## Product Safety Statements

### California Prop65 Warnings

California's Safe Drinking Water and Toxic Enforcement Act of 1986, also known as Prop 65, requires a warning notice on products that contain chemicals identified by the State of California to cause cancer or reproductive toxicity. Over 900 chemicals are on California's list of Prop 65 chemicals and can be found at [www.oehha.org/prop65](http://www.oehha.org/prop65).

To insure meeting Prop 65 guidelines, Navitor labels products free of charge that may ship into the State of California. The label will read as follows per direction from the State of California and the Office of Environmental Health Hazard Assessment:

**⚠️ WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Enhanced Finishes

### Art Charges

Additional charges may apply for layouts that demand special attention, such as artwork unsuitable for reproduction or files that need manipulation because they are not print-ready. If you require scanning, design, or typesetting services, contact us for details on prep charges.

Art charges will be added on top of the standard setup charges for manual orders. Setup charges cover basic file checks, including margins, bleeds, embedded/outlined fonts, and raster image resolution.

NOTE: Add two extra production days for typesetting and design services. The listed production times will begin after artwork approval.

### Press Proofs

Want to ensure that your order is perfect? For Enhanced Finishes orders, you have the option to order a press proof that will provide a small sampling of business cards, announcements, or postcards before committing to the design; call us for a quote. If your design needs adjusting, you can order another print piece with the new design.

### Digital Proofs

Digital proofs are provided at no charge on all online orders. Digital proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges." This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

## Creating Your Enhanced Finishes Files

### Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab online.

### Art & File Requirements:

- All Enhanced Finishes must be layered on top of CMYK art and set to Overprint
- All Enhanced Finishes must be set as a Spot color swatch and named according to the chart below
- Enhanced Finishes cannot bleed and must have a 1/8" margin from the trim edge
- Full color elements must be CMYK only
- Full color elements may bleed and should include a 1/8" bleed from the trim edge
- Full color elements must have a 1/8" margin from the trim edge on business cards, and a 1/4" margin from the trim edge on announcements and postcards
- Enhanced Finishes that touch should be separated with 1 pt. gap to add greater definition and prevent elements from merging together
- Minimum point size for text: 8 pt.
- Minimum point size for line weight: .5 pt.
- Minimum full color raster artwork resolution: 300 dpi
- File color format: CMYK
- Accepted file format: PDF
- PDF file must be submitted as composite, layered file formatted as a 1-page PDF for 1-sided products or a 2-page PDF for 2-sided products
- Change all text into outlines in the document before exporting the PDF

### Coloring your swatches for Enhanced Finishes

Desired Finish:	Name Your Color Swatch:
Spot Gloss.....	Spot Gloss
Raised Spot Gloss.....	Raised Spot Gloss
Raised Foil Black.....	Raised Foil Black
Raised Foil Gold.....	Raised Foil Gold

Raised Foil Dull Gold .....	Raised Foil Dull Gold
Raised Foil Silver.....	Raised Foil Silver
Raised Foil Dull Silver.....	Raised Foil Dull Silver
Raised Foil Red.....	Raised Foil Red
Raised Foil Light Blue.....	Raised Foil Light Blue
Raised Foil Green.....	Raised Foil Green
Raised Foil Holographic Silver .....	Raised Foil Holographic Silver

NOTE: The actual color build of the spot swatch will not impact the final print piece, but the name of the swatch must be consistent with the finish desired.

### Swatch Library

Our Enhanced Finishes Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to our swatch colors and their mix settings to ensure that we print exactly what you create. The swatch library and instructions for installation can be found under "Help and Resources Enhanced Finishes" on our website.

### PMS Colors

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

### Printing Black vs. Black

Full Color Business Cards, Announcements, and Postcards with Enhanced Finishes should use 100% Black to ensure the best possible results on black elements. However, use Printing Black (C-80%, M-80%, Y-80%, K-95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage, and for bold type or lines that are thicker than 2½ points.

### Need help?

Guidelines and tutorials are available under "Tools" on our website. Please contact us for additional resources.

Imprint Processes

**Blind Debossing**  
The inverse of embossing. Instead of pressing a design from the back of the paper, the design is pressed from the front (italics) of the paper.

**Foil Embossing**  
Applying metallic foil onto the printed piece creating a raised design for a decorative and textured effect.

**Blind Embossing**  
The design or text is pushed into the back of the paper, leaving a raised impression on the front that can be either one-dimensional single-level, or three-dimensional multi-level.

**Foil Stamping**  
Metallic or pigmented foil is heat-pressed onto a surface to create shiny, eye-catching designs or text.

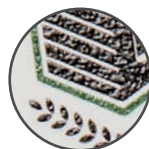

**Engraving**  
Incising a design onto a metal plate, applying ink to the recessed lines, and transferring the image onto paper under pressure, resulting in a finely detailed, raised print.

**Full Color Process - Flat and Raised**  
Ideal for complex color variations, full color process combines four basic colors – cyan, magenta, yellow, and black – offering a wide spectrum of vivid color. Full color raised printing achieves a multi-dimensional effect.

**Enhanced Finishes: Raised Foil**  
Adding a three-dimensional and reflective effect to selected design elements by applying a layer of metallic foil.

**Perma Raised® Thermography**  
A special heat-resistant process, used on all letterheads and envelopes (unless otherwise indicated) that ensures the printed elements withstand the high temps of printers and copy machines without melting, smearing, or distorting color.

**Enhanced Finishes: Raised Spot Gloss**  
Applying a glossy varnish to specific design elements, creating a raised and tactile effect for added visual appeal.

**Raised Printing**  
A method that creates a raised, tactile texture by using a special ink during the printing process. All orders will print with raised ink unless another process is specified or the product is listed otherwise.

**Enhanced Finishes: Spot Gloss**  
A specific area or spot on a printed piece is coated with a glossy varnish, creating a contrast between glossy and matte textures for visual impact.

**Standard and PMS Inks**  
Standard inks are basic ink colors used in traditional printing, and can be found in the Stationery Swatch Book, while PMS (Pantone Matching System) inks are a standardized and universal system of specific ink colors used for 100% accurate color matching.

**Flat Printing**  
A printing method that produces a smooth, even surface without raised or embossed elements.
