EARTH FRIENDLY GIFTS

THAT DELIGHT THE SENSES... AND EVERY RECIPIENT, TOO!

Sustainability and the environmental impact of gifts are increasingly important to a growing number of corporate gift buyers.

Our factory has been doing its part to protect the environment for decades by implementing sustainability initiatives. We believe sustainability is not just a goal but a way of doing business.

REUSE

Most of our gifts include reusable elements. For example, our charcuterie gifts are packed on sustainable bamboo, acacia, or slate boards.

REDUCE

We work continuously to minimize the packaging of our gifts to ensure that less than 3% of any gift needs to be sent to the landfill.

RECYCLE

We strive to use recyclable packaging wherever possible. In addition, we recycle over 50 tons of paper, corrugated, and plastic annually!

SAVING THE RAINFORESTS

No rainforests have been damaged to create our gifts. All our wood products are made from sustainable timber.

Giving our chocolates to your customers and employees can help save the rainforests! Cacao, the principal ingredient of chocolate, needs the shaded canopy of the rainforest to grow. Nearly all of the chocolate used in our gifts is "Rainforest Alliance" certified, which ensures that the farms have met the environmental, social, and economic standards of the Sustainable Agriculture Network. The more chocolate we consume, the greater the need to preserve the rainforest.

That's why we like to say...
"Save the rainforests; eat
more chocolate!"

Gifts That Give Back

15% of the profits from orders placed for these gifts by December 31, 2024 will be donated to Habitat for Humanity.
