- Order must be production ready.
 - Good credit standing.
 - Plastic pens - screen imprint in one color on barrel.
 - Metal pens - laser engrave in single pass.
 - All proofs waived.
 - Deadline for order is 3 p.m. Eastern.
- Order must be marked "24 Hour Rush" to receive service.
 - Maximum order quantity is 1,000 pieces for plastic pens and 500 pieces for metal pens.
 - Available on select items.

Artwork Requirements

Screen Printing and Laser Engraving

- To facilitate speed of your order, electronic production-ready artwork should be supplied if available.
- Production-ready art will have high black-and-white contrast with no grays or gradients. It should be crisp and sharp without need for further touch-up, design, color separation, trapping, or rearranging for use.
- We cannot use pre-screened/pre-tinted or half-toned artwork. Thin lines and reverses may not reproduce at the thickness or size and small copy may not remain legible.
- Licensed artwork will require a written release. Submitted artwork must be in full compliance with all copyright and or trademark laws, etc.
- Artwork received may be altered slightly to meet product specifications or to adapt to imprinting processes. Any alterations could delay the scheduled ship date.
- Minimum font size for copy is 6 point.
- Digital artwork can be accepted in the following formats:
 - Adobe Illustrator (.ai), (.pdf), (.eps)
- Please remember to convert all fonts to outlines.

ColorBurst™ Full-Color Digital Print

- Artwork must be vector prepared art. Art files containing text must have all fonts converted to outlines. Art files should contain no embedded bitmaps, .jpg, .gif, .tif.
- Acceptable formats are .eps, .ai, .pdf.
- Minimum font size is 5.5 point.
- Minimum line width is .5 point.
- Unlimited number of colors are available.
- Artwork colors are reproduced and matched using the CMYK printing process and not by use of PMS or spot color inks. Reasonably acceptable results can be produced from this process.
- Gradients, halftones and color bleeds are acceptable with the digital print process.
- For best results and readability choose a product color which will provide maximum contrast with your desired colors in the digital imprint. When in doubt, white or light colored styles will provide the best contrast for digital printing.

Art Charges

- The first 30 minutes are at no charge; additional time spent will be at **\$50.00(G)** per hour. Charges may be assessed to make submitted artwork reproducible with our imprinting methods. Slight modification to artwork will not be charged. Additional charge must be authorized.
- The factory reserves the right to determine if artwork is production-ready when received.

Artwork Email

- Include P.O. number in subject line.
- Include distributor name in subject line.
- Please indicate if you are sending revised art.
