COLORFILL

TRANSLUCENT VS. OPAQUE

One way to make an award unique is by adding a pop of color. You can add colorfill to logos, messaging, names, and titles on any award or gift for a small additional charge.

TRANSLUCENT

Translucent colorfill lets light shine through.

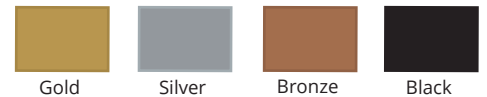

TRANSLUCENT

OPAQUE

Opaque colorfill stands strong and vibrant, letting no light shine through.

OPAQUE

Our 3D subsurface laser imprint uses state-of-the-art technology to recreate any image inside the crystal. From cars and people to astronauts floating in space, your vision comes to life in stunning detail.

CUSTOM *awards*

Creating a custom award is easy.

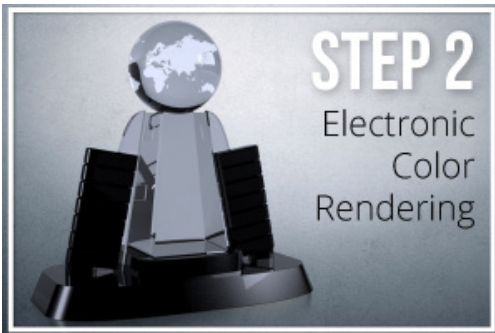

From concept to completion, our Memory Makers will take your ideas and turn them into reality. We will help you narrow down the endless possibilities to create your fully custom award.

Our Custom Process:

Our creative team will work with you to get a better understanding of what you want to create! Bring all your ideas, and we can help you narrow down the options, while offering additional things to consider.

We will create a 3D rendering of your design to help give you a realistic view of the final custom award. We will continue to modify the design to your satisfaction!

When your 3D rendering is approved, we will create a one-of-a-kind sample of your custom award for your review. If necessary, further modifications can still be made before your final order is produced.
