The logo for Point Grey, featuring a white icon of a book or document on an orange square background, followed by the text "point grey" in a lowercase, sans-serif font, with a trademark symbol (TM) to the right.

point grey™

A young man with dark, curly hair is riding a black and red electric scooter on a paved sidewalk. He is wearing a dark grey suit jacket, a white shirt, and dark trousers. He is leaning forward in a dynamic, athletic posture, with his right leg extended back and his left foot on the scooter's deck. He is wearing white sneakers with a black and white checkered pattern. The background shows a brick building and some trees with autumn-colored leaves.

and mindfully sourced 100% custom
apparel and accessories to your brand.
We prove our value by staying laser-
focused on validating your ideas.
You'll be working with an experienced,

CREATE
AN
EXCEPTIONAL
BRAND
IMAGE.

We bring you the world of opportunity. Quite literally.

Design to Deliver

We handle everything from concept to manufacturing for teams, creators, brands and communities that care about design, quality and sustainability. We'll incorporate your graphic elements, colors, brand guidelines, and corporate culture in ways that cannot be achieved with off-the-shelf apparel.

Research and Development

Research is at the core of our designs and we always have the end user in mind. To meet your exact needs, we will work closely with you to choose the right materials and components and provide photo realistic mockups to help you visualize how the product will look and feel.

Prototype and Quality Assurance

Once you've selected the designs for production, we'll create prototypes made to ensure that every detail is exactly as expected. Each product is rigorously tested to ensure it meets top quality standards and your performance expectations.

Custom Colors

We will match all components, materials and embellishments to your specific brand guidelines using sustainable dyes, inks and applications.

Sourcing

Exclusively curated and mindfully sourced, we've partnered with a global network of premium and sustainable suppliers to match your exact needs with the exact right source.

PERSONALIZE YOUR BRAND.

Even our fabrics are custom made to order.

We work closely with our textile mills to create custom fabrics suited to your exact needs. Whether your product calls for a specific weight, drape, stretch or performance characteristic, we build to suit using a palette of sustainable fibers and yarns from both natural and synthetic sources.

Color can be applied to fabric and trims in a number of ways and we'll determine the best option for your exclusive custom apparel. We can Pantone match and custom dye any garment to match your brand, using sustainable dyes. Once we have a sample of your fabric, we perform a variety of tests to ensure the highest quality product, even after washing and heavy wear.

When it comes to decorating apparel, we want your brand to get noticed. If you can dream a design, we can create it. From 3D applications, embroidery, appliques, laser etching – we can do it all!

TRUE
CHAMPIONS
OF
SUSTAINABILITY.

Strong partnerships.

In 2005, EdwardsX introduced the first sustainable collection of stocked fabrics in the promotional products industry. Our collection consisted of soy, bamboo, and organic cotton fabrications along with RPET (recycled) polyester fabrics. We continue to evolve our sustainable material offerings by continually sourcing better yarns and fabrics from leading suppliers. We offer a wide range of high-quality materials that are great for your people and the planet.

HOW TO MEASURE

Our garments are cut to accommodate active working conditions. Here's how to get the correct size and ensure a comfortable fit.

LADIES

Be sure to measure your body. Do not measure over shirts or slacks. Hold tape measure close but not tight against the body.

BUST

Measure across fullest part of bust/chest keeping arms relaxed at sides. Keep tape measure straight and parallel to the floor.

WAIST

Measure at your natural waistline at its smallest part.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

HIGH HIP

Measure the protruding points of your hip bones, approximately 3" below your natural waist.

MEN

For men, as a general rule, the number of inches measured will equal your size, when measured correctly. Be sure to measure your body. Do not measure over shirts or slacks.

NECK

Measure around base of neck (lowest part). Number of inches equals neck size.

SLEEVE LENGTH

Start from the center of the back of neck and measure across the shoulder to the elbow and down the wrist.

CHEST

With arms at sides, measure across fullest part of the chest, under arms and across shoulder blades. Keep tape measure straight across back.

WAIST

Measure your natural waist at the height you normally wear your pants. Keep the tape measure firm but not tight.

INSEAM

Measure the inside of your leg from crotch down to the top of the shoe. Or, measure a similar style of pants that fit well. Measure from the crotch seam to the hem.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

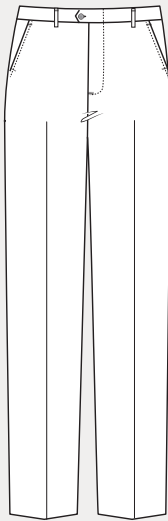

FIND YOUR FIT

Our garments are cut to three standard fits for more uniform sizing. See individual product descriptions.
